RE: Permit Issuance
NPDES Industrial Stormwater General Permit
Application No. 202603871 & Permit No. CTR050036

Dear Permittee:

Pursuant to Section 22a-430 of Chapter 446k, Connecticut General Statutes (Conn. Gen. Stat.), and Regulations of Connecticut State Agencies (Regs. Conn. State Agency) adopted thereunder, as amended, and Section 402(b) of the Clean Water Act, as amended, 33 USC 1251, et. Seq., the Department of Energy and Environmental Protection (DEEP) has issued the attached authorization to discharge under the National Pollutant Discharge Elimination System (NPDES) *General Permit for the Discharge of Stormwater Associated with Industrial Activities*, issued on October 1, 2025 for the above-referenced facility.

Review the entire General Permit, its conditions, and the supporting regulations. This permit expires on September 30, 2030. Please be advised that on and after the effective date of this Notice of Coverage, the Permittee must comply with all terms, conditions, and limitations of the permit, the requirements of the regulations that govern the authorized activity, and any other applicable state, federal, or local laws or regulations. **All activities must conform to that which is specifically authorized**.

This authorization is not transferable to a new entity. To change the name of the existing permit holder, submit the Notice of Change form. **In case of an emergency, please contact DEEP Dispatch at 860-424-3333**.

Report instances of noncompliance on DEEP's website here: Stormwater Management

Retain a copy of this letter and Notice of Coverage in your SWPPP for your records. Should you have any questions about this notice or any other questions concerning the general permit, please visit the Industrial Stormwater website at Industrial Stormwater Program or contact the program staff at deep.stormwaterindustrial@ct.gov.

Best Regard,

Audra Dickson, Director

NOTICE OF COVERAGE

Authorization to Discharge Stormwater under the Industrial Stormwater General Permit

Pursuant to Section 22a-430b of the Connecticut General Statutes, as amended, and in accordance with the provisions of the National Pollutant Discharge Elimination System (NPDES) *General Permit for the Discharge of Stormwater Associated with Industrial Activities*, issued on October 1, 2025 (hereinafter referred to as the Industrial Stormwater General Permit or General Permit), the Commissioner of Energy and Environmental Protection (hereinafter, the Commissioner) hereby grants authorization to the following permittee at the following site:

Permittee Information:	**Site Information:**
TERRYVILLE AUTO PARTS, INC.	Terryville Auto Parts
35 FALL MOUNTAIN RD	35 Fall Mountain Rd
TERRYVILLE, CT 06786-6827	Terryville, CT 06786-6827

This authorization is issued based upon the receipt of application no. 202603871 submitted by the permittee in accordance with the Industrial Stormwater General Permit. This Notice of Coverage (NOC) constitutes written confirmation that the Commissioner has received a complete application from the Permittee and that the Permittee is hereby authorized to discharge stormwater associated with industrial activity from the site location listed above, in accordance with the terms and conditions of the General Permit. The following permit has been assigned to this site:

Permit Number: CTR050036
Effective Date of Authorization: October 15, 2026
Permit Expiration Date: September 30, 2030

It is expressly understood that this authorization does not constitute a determination by the Connecticut Department of Energy and Environmental Protection regarding the validity, accuracy, or completeness of any information provided in the application or associated documentation. The electronic certification by the Permittee represents that, to the best of their knowledge and belief, the site is eligible for coverage under the General Permit and that all submitted information is true, accurate, and complete. Authorization to discharge shall be considered void if any information submitted in the registration is found to be false, misleading, or if the site is not eligible for coverage. The Permittee shall at all times ensure compliance with all provisions, limitations, and conditions of the General Permit, including applicable effluent limits, benchmark monitoring requirements, and all sector-specific performance standards. Any modification, addition, or removal of outfalls must be approved in accordance with the general permit. This NOC does not relieve the Permittee of compliance with other federal, state, or local laws.

Authorization is issued on October 15, 2026

Water Permitting & Enforcement Division
Bureau of Materials Management and Compliance Assurance

Obligations of Industrial Stormwater Permit Holders

Any entity authorized by the Commissioner of Energy and Environmental Protection under the NPDES *General Permit for the Discharge of Stormwater Associated with Industrial Activity* (Industrial Stormwater General Permit or general permit) assumes specific responsibilities to ensure ongoing compliance with terms and conditions of the permit. This document provides an overview of key permit obligations but does not serve as a comprehensive list of all requirements. Permit holders are responsible for reviewing and complying with all applicable provisions of the general permit.

I. General Conditions

The permittee must at all times continue to meet the eligibility and authorization set forth in Section 2 of this general permit for the duration of coverage. Authorized activities must be conducted in accordance with all applicable general and sector-specific conditions, including but not limited to the following:

- Comply with discharge-specific requirements, if applicable.
- Implement all stormwater control measures required by the general permit, such as:
  - Good housekeeping practices
  - Minimization of exposure to stormwater
  - Containment of liquids and wastewater
  - Dust control
  - Vehicle and equipment storage, cleaning, and maintenance practices
  - Management of solid and de-icing materials
  - Spill prevention and response procedures
  - Erosion and sediment controls
  - Preventive maintenance
  - Stormwater management structures and practices
  - Infiltration and groundwater quality protection
  - Employee training
  - Site control for inactive or unstaffed sites
  - Posting of required site notice
  - Sector-specific best management practices (BMPs)
- Develop and maintain a Stormwater Pollution Prevention Plan (SWPPP) in accordance with the general permit.
- Conduct all required inspections and visual assessments.
- Perform all required monitoring activities (see Section II below).
- Implement and document corrective actions when deficiencies or permit violations occur.
- Maintain records and documentation as required by the general permit.
- Submit the Annual Report electronically in accordance with permit timelines.
- Report any permit violations as required by the general permit.

II. Monitoring and Reporting Requirements

The Permittee shall comply with all applicable analytical monitoring and reporting provisions set forth in the general permit, including, but not limited to the following categories of monitoring:

- Benchmark Monitoring
- Effluent Limits Monitoring
- Aquatic Toxicity

- Additional Monitoring
- Impaired Waters Monitoring
- Other Monitoring as required by the Commissioner

Monitoring requirements applicable to each individual sector are identified in tables contained in Section 6 of the general permit.

III. Electronic Discharge Monitoring Report Submissions

All stormwater DMR data collected must be submitted in EPA s online NetDMR system, as specified in the permit or otherwise specified by the Commissioner. The frequency, due dates, and types of DMR submissions shall be as specified in the general permit and may vary by monitoring category or sector. Failure to submit complete, accurate, and timely DMRs constitutes a violation of the permit and may result in enforcement action.

Table 1. DMR Submission Types and Deadlines

Monitoring Frequency	First Monitoring Period	DMR Due Date	DMR Type	Submission Path
Quarterly	January 1st - March 30th	April 30th	Paper Until receipt of Notice of Coverage	Email Until receipt of Notice of Coverage
	April 1st - June 30th	July 30th		
	July 1st - September 30th	October 30th		
	October 1st - December 31st	January 30th		
Semi-Annual(first)	January 1st - June 30th	July 30th		
Semi-Annual(second)	July 1st - December 31st	January 30th		
Annual	January 1st - December 31st	January 30th		

IV. Recordkeeping Requirements

The Permittee shall maintain all monitoring records, reports, analytical results, calibration data, inspection logs, and other relevant documentation for a minimum of five (5) years from the date that coverage under this permit expires or is terminated, unless otherwise specified by the Commissioner. Records shall be made available to the Department upon request.

V. Compliance Obligations

The permittee shall at all times ensure compliance with all applicable conditions and requirements of the Industrial Stormwater General Permit. The permittee is responsible for the development, maintenance, and implementation of a current Stormwater Pollution Prevention Plan (SWPPP) and the performance of regular activities, including, but not limited to:

- Conducting inspections of stormwater controls, best management practices, and discharge points;
- Performing visual assessments of discharges;
- Collecting, analyzing, and reporting all analytical monitoring data; and
- Implementing corrective actions where deficiencies, exceedances, or noncompliance are identified.

Failure to maintain compliance with any of the above requirements may result in enforcement actions, including penalties, modification, or revocation of coverage under the general permit.
